Education

Western University — B.Sc. Honours Computer Science (Co-op) — GPA: 3.8 **Apr 2028**

- Leadership: VP, Head of Agentic AI at Western AI (2,000+ students); founded the agentic club that merged into it

Y Combinator Startup School — San Francisco — Selected from 30,000+ applicants **Jul 2026**

Skills

Languages: TypeScript, JavaScript, Python, Java, Swift, Go, C, SQL, Bash, HTML/CSS

Technologies: React, Next.js, Vue.js, Node.js, Express, FastAPI, Flask, Docker, AWS, PostgreSQL, Redis

AI & Agents: MCP, Claude API, LangGraph, RAG, multi-agent systems, Browserbase, Claude Code, Codex

Experience

Dayforce | **Product Engineer Intern** Sep 2026 — Apr 2027

- Strategic Workforce Planning team, formerly Agentnoon (**YC W22**)
- Built a formula editor with nested IF/THEN logic so one formula assigns values across employee groups
- Tested against **250,000-employee** org models on a platform serving **7,000+ enterprises**

ICARO Media Group | **Software Engineer Intern** Jul 2025 — Sep 2025

- Provisioned an AWS EC2 Linux server and deployed a PHP web app on Apache backed by MySQL
- Built a Flask employee management app with GET and POST endpoints for MySQL CRUD
- Debugged HTTP requests and responses with Postman, curl, and browser DevTools

Projects

Open Source AI Agent Library | Markdown, Claude Code agency-agents PR #129

- Authored the LinkedIn Content Creator agent, merged into a **159,000+ star**, **25,000+ fork** AI agent library
- Formerly GitHub's #1 trending repository; one of about 100 contributors

Agent Run Visualizer | JavaScript, Node.js, MCP fayzan123.github.io/rungraph

- CLI and MCP server that turns AI agent runs into graphs: **3,900+ npm downloads**, **26 GitHub stars**

Multi-Agent Workflow Builder | TypeScript, React github.com/fayzan123/cwc

- Visual canvas for composing multi-agent coding workflows: **5,800+ npm downloads**, **37 GitHub stars**

Multi-Agent Drug Repurposing | Python, FastAPI, Neo4j devpost.com/software/lazarus

- **Winner**, HackPrinceton Spring 2026: Regeneron AI & Tech for Clinical Trials track (400+ hackers)
- Built a **9-agent system** that mines failed clinical trials from ClinicalTrials.gov, PubMed, and openFDA

AI Persona Site Stress-Tester | TypeScript, Browserbase devpost.com/software/flashflood

- **Finalist**, Hack the North 2026: Browserbase track at the University of Waterloo
- AI personas test a website in parallel cloud browsers and file evidence-backed bug reports

AI-Ready Screen Recorder | Swift, ScreenCaptureKit annotake.app

- Notarized macOS app inspired by Wispr Flow that records UI flows as captioned steps for AI agents

Awards & Certifications

Hackathons: Winner, HackPrinceton 2026 (Regeneron track, 400+ hackers); Finalist, Hack the North 2026

Academic: Dean's Honor List (2023–2026); Western Admission Scholarship

Certification: Machine Learning Specialization, DeepLearning.AI and Stanford Online (Dec 2025)
