EDUCATION

Honours Specialization in Computer Science (HBSc)
Western University

London, ON
Expected May 2027

- **GPA:** 3.8
- **Relevant Coursework:** Data Structures and Algorithms, Machine Learning, Databases, Statistics, Operating Systems, Software Engineering
- **Awards:** Western Admission Scholarship; Dean's Honor List 2023, 2024

TECHNICAL SKILLS

Languages: Python, Java, C, Go, TypeScript, SQL (MySQL), JavaScript, HTML/CSS, R
Frameworks/Platforms: React, Flask, Next.js, Supabase, Tailwind CSS, Firebase
AI & LLM Tools: Codex, Claude Code, Gemini, OpenClaw, Nano Banana, LangGraph, CrewAI, AutoGen, MCP
Developer Tools: Git, Linux, Docker, Postman, VS Code, Jupyter, IntelliJ, PyCharm
Databases/Libraries: MySQL, PostgreSQL, NumPy, Pandas, Matplotlib, TensorFlow, Scikit-learn, PyTorch, Seaborn

EXPERIENCE

President & Founder

Western Agentic Development Club, Western University

London, ON
March 2026 – Present

- Founded and currently lead a student-run agentic AI community for computer science students at Western University.
- Organize workshops, hackathons, and networking events in the field of agentic AI.
- Oversee club-led projects where members collaborate across teams to build and ship practical AI agent solutions.

Backend Development Intern

ICARO Media Group

Thornhill, ON
July 2025 – Sept 2025

- Refactored and upgraded **LAMP-based web applications**, reducing production friction across internal workflows.
- Standardized **AWS EC2** development environments for **5+ developers**, improving release reliability and test consistency.
- Built **Flask REST APIs** and resolved latency bottlenecks via profiling, improving median API response time by **15%** under peak load.

Data Analyst Intern

Elite Life Financial

Toronto, ON
June 2024 – Sept 2024

- Analyzed **500+ client records** with **SQL/Python**, improving recommendation logic and advisor-client personalization.
- Automated repetitive workflows with optimized **SQL queries** and scripts, reducing manual processing time by **30%**.

PROJECTS

Open Source Contribution – agency-agents PR #129 Bash, Claude, GitHub

- Merged into the **#1 trending GitHub repository (65,000+ stars)** by contributing a LinkedIn Content Creator agent.

Claude Check Node.js, npm, Anthropic API, CLI Tooling

- Built and published an **npm CLI** with **650+ downloads** that scores prompt complexity, estimates message count, and returns safe/caution/do-not-start verdicts using real-time **claude.ai** usage checks.

ClearCare React, TypeScript, FastAPI, PostgreSQL, Vapi, Twilio

- Built a closed-loop rural referral platform for the **WDS SPARK Hackathon**, with AI voice follow-ups (**Vapi**), SMS alerts (**Twilio**), and escalation workflows designed to reduce emergency transfers and avoid up to **\$15,000** per airlift case.

Chox AI Go, React, TypeScript, PostgreSQL, Docker

- Built an AI agent governance layer that classifies and risk-scores agent tool calls, logs shadow verdicts (allow/block/escalate), and provides proxy and SDK integrations for policy enforcement.

Claude Skills Claude, Markdown

- Built and published **context transport**, a Claude skill for reusable context handoff across workflows.
- Built and published **brutal analysis**, a Claude skill that performs evidence-backed product and market analysis via live competitive research and outputs build/pivot/kill recommendations.

CERTIFICATIONS

Machine Learning Specialization by Andrew Ng

Coursera, DeepLearning.AI

December 2025
