Education

Western University — London, ON
Bachelor of Science, Honours Specialization in Computer Science (Co-op) — *Expected Apr 2028*
- GPA: 3.8 | Dean's Honor List (2023–2025) | Western Admission Scholarship

Y Combinator Startup School — San Francisco, CA
Selected from 30,000+ applicants — *Jul 2026*

Experience

Dayforce — Toronto, ON
Product Engineer Intern — *Sep 2026 – Apr 2027*
- Built a multi-line formula editor for Dayforce's workforce planning product (formerly Agentnoon, **YC W22**) with nested IF/THEN logic, so one formula assigns different values to multiple employee groups.
- Added field autocomplete and a Functions & Fields panel with **18** functions across **4** categories.
- Tested against **250,000**-employee org models on a platform serving **7,000+** enterprises and **7.6M+** employees.

ICARO Media Group — Thornhill, ON
Software Engineer Intern — *Jul 2025 – Sep 2025*
- Built Flask REST APIs for ICARO's multiscreen media platform, which serves telcos and media companies with **240M+** subscribers across the Americas and Europe, cutting median response time by **15%** under peak load.
- Modernized legacy PHP web apps and standardized AWS EC2 development environments for **5+** developers.

Projects

Open Source AI Agent Library (agency-agents) | *Markdown, Claude Code* — Merged Mar 2026
- Authored the LinkedIn Content Creator agent, merged into agency-agents, a **159,000+ star**, **25,000+ fork** AI agent library and formerly GitHub's **#1 trending** repository, as one of about **100** contributors.

Agent Run Visualizer (rungraph) | *JavaScript, Node.js, Preact, ELK.js, MCP* — Aug 2026
- Built a zero-setup CLI and 8-tool MCP server that rebuild Claude Code, Codex, Cursor, OpenCode, and Hermes agent runs from local transcripts into interactive, queryable graphs: **3,900+ npm downloads**, **26 GitHub stars**.

Multi-Agent Workflow Builder (Claude Workflow Composer) | *TypeScript, React* — May 2026 – Jul 2026
- Built a visual app for composing multi-agent coding workflows with a drag-and-drop canvas and repeated-action detection that proposes workflows from usage history: **5,800+ npm downloads**, **37 GitHub stars**.

Multi-Agent Drug Repurposing (Lazarus) | *Python, FastAPI, Neo4j* — **Winner**, HackPrinceton 2026
- Won the **Regeneron AI & Tech for Clinical Trials** track (400+ hackers, team of 4) with a 9-agent system that mines failed clinical trials to rank drug-repurposing candidates.

AI Persona Site Stress-Tester (Flash Flood) | *TypeScript, Browserbase* — **Finalist**, Hack the North 2026
- **Browserbase track finalist** at Hack the North (University of Waterloo), team of 3: AI personas test a site in parallel cloud browsers and file evidence-backed bug reports; built the session engine and live agent wall.

AI-Ready Screen Recorder (Annotake) | *Swift, ScreenCaptureKit* — Sep 2026 – Present
- Shipped a notarized macOS menu-bar app inspired by Wispr Flow: a hotkey records any UI flow, pixel diffing keeps one frame per step, and each click is captioned from the Accessibility tree for AI coding agents.

Leadership

Western AI — London, ON
Vice President, Head of Agentic AI — *Sep 2026 – Present*
- Founded Western's Agentic Development Club; ran AI workshops and hackathons for **2,000+** students.

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, Swift, Go, C, SQL, Bash, HTML/CSS
Frameworks & Tools: React, Next.js, Vue.js, Node.js, Express, FastAPI, Flask, Docker, AWS, PostgreSQL, Redis, Git
AI & Agents: MCP, Claude API, LangGraph, RAG, multi-agent systems, Browserbase, Claude Code, Codex, Cursor
